NCM	Ex	Description
7309.00.90	-	Tanks made of steel plate coated with glass layer, for the treatment of industr
7309.00.90		circular tanks made of bolted steel plates coated with vitrified (glass to the m
8207.30.00		progressive tools for stamping stator blades, rotors and rotors packages airtig
8207.30.00		Tools used for hot stamping (hot forming) of automotive parts, with punches
8405.10.00		industrial compact units, mounted on container, for the production of hydroge
8407.90.00		Internal combustion engines GLP version with four cylinders, with a cylinder
8408.10.90		electronic marine diesel engines 4-stroke, compression ignition, direct injecti
8408.10.90		Electronic marine diesel engines 4-stroke, compression ignition, direct injecti
8408.10.90	_	electronic marine diesel engines 4-stroke, compression ignition, direct injecti
8408.10.90	1	diesel engines, marine, electronics, 4-stroke, compression ignition, direct inje
8408.10.90		marine piston engines with compression ignition (diesel cycle) for the propul
8408.90.90	1	diesel engines for electric locomotives and diesel hydraulic, maximum power
8408.90.90		Internal combustion piston engines and diesel cycle, 4 cycle, water-cooled, c
8408.90.90		electronic diesel engines for diesel-electric locomotives and diesel-hydraulic,
8412.90.90	1	Stators provided with helical lobes elastomer molded within the metal tube to
8413.50.10		Piston diaphragm pumps for pumping ore slurry with 125kW power (167.6H
8413.50.10		Hydraulic drive units for hydraulic tools, capable of operating from 2 tools si
8413.50.90		Alternative positive displacement motor pumps, piston 3 with 8.0 to 12mm, v
8413.70.80	_	Centrifugal pumps for washing machine made of plastic, equipped with two e
8413.81.00	1	High pressure pumps with piston 3 with a production capacity of 10.400kg / l
8414.10.00		Vacuum pumps, rotary, oil-lubricated vane, with or without engine, with a no
8414.80.12		Elements compressors, free of oil, casting compounds, rotor bolts with or wit
8414.80.12		Elements compressors (screw rotor and housing) with or without gear train fo
8414.80.12		Elements rotary compressors, screw-type, self-propelled by permanent magne
8414.80.31		Units for hydrogen compressors, piston type, mounted in "skid" with two con
8417.20.00		Ovens for baking with baking capacity of 43,200 mass units per hour (tortilla
8417.80.90	38	Lehr ovens type tunnel modular sections 9, gas for annealing and controlled of
8417.90.00		Support roller constructed of cast iron or steel to support a rotary kiln for the
8418.69.99	25	PVC hard grain cooling systems in pressurized water flow through the educto
8419.32.00	31	Desiccator vacuum insulating paper capable of 12,315m³, provided with mov
8419.39.00	2	Conditioners continuous action leather with injection of high pressure air by t
8419.39.00	108	Machine dry creping synthetic laminates, of up to 100 kg with use of hot air j
8419.50.10	7	Combined heat exchangers of brazed aluminum plates with internal fins made
8419.50.10	25	Combined heat exchangers of brazed aluminum plates with internal fins exch
8419.50.10	32	Heat exchangers combined in brazed aluminum single body, compressed air
8419.50.10	36	Heat exchangers made of aluminum corrugated plates propylene subcooling,
8419.81.10	1	Industrial rotary autoclaves with excess pressure for sterilization by means of
8419.81.90	49	automatic for exclusive circulation of coffee machines, hot tea and water, wit
8419.81.90	50	Machines for exclusive coffee drawing, tea and hot water, equipped with coir
8419.81.90	51	Automatic espresso machines and other soluble beverage in hot water tower
8419.89.19	28	Sterilizers food by ultra high temperature ("UHT - Ultra High Temperature"
8419.89.99	_	heat treatment tunnels through high internal temperature, turns the treatment 1
8419.89.99	_	horizontal tanks for the production of curd, with a minimum capacity of 10,0
8419.89.99	+	wet creping machines synthetic laminates, with capacity of up to 200kg, using
8419.89.99	1	medium voltage electrical heaters for heating ethane gas with 4,16kV voltage
8419.89.99		gas treatment units through deoxidation and hydrogen DRY mounted in "skid
8419.89.99	1	cooling water cooling panels with a capacity of working 6barg, internal volur
8419.89.99	_	Stainless steel reactors for solid state polymerization (SSP) and decontaminat
	201	Start reactions for some state polymerization (SSI) and decontaining

8419.90.39	9	Blocks corrugated plates for plate heat exchangers, brazed and assembled blo
8420.10.90	2	Continuous press, calender type to dry hides, using 2-roll coated felt, with a c
8420.10.90	4	continuous hydraulic presses, calenders type to mangle and record leathers w
8420.10.90	5	rotary hydraulic presses, roller type, for stretching and embossing hides and s
8420.10.90	6	continuous Hydraulic press (calender) to roletar, flatten and smooth leather se
8420.10.90	8	Machine for stretching leather sole calender type with double cylinder estiras
8420.10.90	40	Hydraulic rotary presses, roller type mangle for hides and skins, with a heated
8420.10.90	45	Combinations of machines for straightening surfaces synthetic polyurethane l
8420.10.90	46	Combinations of machines for recording process embossed synthetic polyure
8420.10.90	47	Calenders heated, suitable for compact cotton bands with smooth rollers or no
8420.91.00	4	Cylinders (shirts) for calendering rolls used in paper and pulp industry, made
8420.91.00	5	Cylinders (rolls) Heat to calenders used in the paper industry, made of chilled
8421.19.90	54	Centrifugal separators, high speed, forming a single body, airtight, for remova
8421.21.00	9	Modules hollow fiber ultrafiltration membranes of polyvinylidene fluoride (P
8421.21.00	10	Treatment systems by filtration and purification of water or wastewater, mour
8421.21.00	24	ultrafiltration membrane modules of hollow fibers made of polyvinylidene flu
8421.21.00	48	Modules hollow fiber ultrafiltration membranes of polyvinylidene fluoride (P
8421.21.00	49	Treatment systems by filtration and purification of effluents, mounted on stee
8421.21.00	65	system with machine combinations which combines in the same apparatus, flo
8421.29.90	111	containment equipment and sand filter for oil wells equipped with perforated
8421.29.90	112	Equipment for preparation, filtering and lubricating emulsion cooling to horiz
8421.39.90	59	Capacitors humidity ("water trap") for respiratory gas analyzers, with 0.8 mi
8421.39.90	62	Filters for steam to the steam contamination-free filtration with membrane fil
8421.39.90	63	Filters for air or gas to sterile filtration efficiently to prevent contamination, v
8421.39.90	64	Compressed air filters, carbon dioxide (CO2) and other gases to free préfiltra
8421.99.99	20	housing modules reinforced polypropylene, glass fiber for filter elements (car
8422.30.10	8	liquid nitrogen dosing equipment in bottles, jars, bottles or cans with the spee
8422.30.10	45	rotating dispensers at least 3 and at most 8 heads for corking bottles of wine a
8422.30.21	66	Automatic bagging machines for filling packages of the type "big bag" with g
8422.30.29	78	Rotating Machines for packaging of food products, liquids or pastes with soli
8422.30.29	274	Equipment choice and boxing ceramic tiles with size control and automatic fl
8422.30.29	323	automatic, vertical machines for forming, filling and sealing plastic container
8422.30.29	327	Automatic machines for filling liquid and pasty products up to 96 ° C in a lan
8422.30.29	380	Combinations of automatic machinery for filling, closing, labeling, grouping
8422.30.29	381	programmable control serum Machines for filling system for "time-pressure".
8422.30.29	382	aseptic filling machinery injectable drugs endowed with bottles accumulation
8422.30.29	383	Machine aseptic filling machines, automatic, continuous, to package milk UH
8422.30.29	384	bottles recravadoras machines with the function of: collecting bottles in the a
8422.30.29	385	Machine combinations for washing, sterilization and filling barrels "KEG" w
8422.30.29	386	Automatic filling machine and seal food packaging type preformed flexible b
8422.30.29	387	automatic equipment and continuous dosing, weighing and labeling, for the p
8422.30.29	388	labeling machines, automatic, for applying self-adhesive labels in ampoules,
8422.40.90	274	Machine packing / automatic wrappers for packaging poultry parts, meat, fish
8422.40.90	472	Horizontal continuous and automatic machines for bottling soft drink and des
8422.40.90	490	Machines for packing goods with termorretratril film packaging capacity to 6
8422.40.90	588	Machine automatic packaging machines for packaging trays containing food
8422.40.90	684	Combinations of machines for the processing of "cold ready meals", tray with
8422.40.90		Machines packing flour tortillas prefabricated plastic packaging capacity of u
8422.40.90	686	automatic thermoforming machines for forming rigid packages from CPET (p
8422.40.90	687	arqueadoras equipment loads (cargo lashing), capacity equal to or greater 2.3
8422.40.90	688	Combinations of automatic machines for tying packages cardboard boxes wit
·

8431.31.10		Electronic devices for calling elevators with buttons illuminated by LED deg
8431.31.90	4	"Pallets" (floors) for crawler in aluminum alloy.
8431.31.90		Step for escalators aluminum alloy.
8431.49.10		lifting equipment to vertically move the load hook of tower cranes through 2
8431.49.10		Equipment to produce turning movements at the top of tower cranes, equippe
8431.49.10		translation equipment to move horizontally the loading carts tower crane hoo
8433.20.90		cutting surfaces of rotating disks, to be applied to self-propelled forage for cu
8433.20.90		Machine autotransportadas to cut, collect, store and tilt gram / lawn, provided
8433.40.00		Balers for giant bales of hay, tensioned, with production of rectangular bales
8433.40.00	14	Pick-up balers for straw or fodder, not self- propelled, tensioned by a tractor,
8433.40.00		Pick-up balers for straw or fodder, not self- propelled, tensioned by a tractor,
8433.40.00	35	Balers large rectangular bales, plastered with different configurations of kniv
8433.59.90	36	Automatic tobacco leaf harvesters (low and middle foot), 4-wheel and 4 lines
8433.59.90	37	Harvesting tobacco leaves (low / middle foot), 3 and 2 lines wheels, rear disc
8433.59.90	38	automatic tobacco harvesters end leaves (high standing), 4-wheel and 4 rows,
8433.60.29	8	Machines for wrapping eggs for the whole egg production or separated egg y
8434.10.00	2	Combinations with automatic machines for milking cows stations with 3.200I
8434.10.00	10	rotating equipment, carousel for automated milking cows, with capacity 24-8
8434.10.00	11	machines Combinations direction, feeding and robotic milking cows, compris
8434.20.10	2	Machines for standardizing the milk fat and cream with a density sensors, flo
8436.10.00	31	For preparation, mixing and dispensing animal feed for pigs, with adjustment
8436.29.00	35	loading platforms and transport of poultry, with a mobile conveyor and the bi
8436.80.00	33	self-propelled wheeled machines for felling, delimbing and trimming of logs,
8436.80.00	76	wood waste disposers or entire trees, horizontal operation under self-propelle
8436.80.00		self-propelled forestry machines on wheels, with traction 6 x 6, with power gr
8436.91.00		automatic feeders for producing arrays of fertile eggs, provided with electron
8436.99.00	4	forest heads for cutting, delimbing and successive cuts into desired lengths pl
8436.99.00		abeçotes forest for cutting and delimbing trees planted or reforestation.
8436.99.00		Heads type "feller" disc with constant rotation for tipping multiple planted tre
8437.80.10		Roller mills for grinding grains, for industrial use, with capacity up 1.550t / d
8437.80.90		Compressor Machines for rolling or flattening of grains, industrial use, with d
8438.10.00		with continuous kneading machines for gravimetric dosing of ingredients / vo
8438.10.00		Machines splitter / shaping mass for making flour tortillas, with a processing
8438.10.00		mass automatic mixing machines for making flour tortillas with processing ca
8438.10.00		prensadoras flour tortilla machine with a production capacity of 36 tortillas p
8438.10.00		Fermentation chambers for pasta flour tortilla with a production capacity of 4
8438.50.00		Grampeadoras automatic machines for closing embedded, double stapling dia
8438.50.00		Combinations of machines for separating half of chicken parts (top) to the car
8438.50.00		double Grampeadoras automatic or semiautomatic Electropneumatic for clipt
8438.50.00		Machines for final inspection of birds with 20 units with two serrated edge tu
8438.50.00		Computer equipment for high performance slicers cold sausages and cheeses,
8438.50.00		double Grampeadoras automatic Electropneumatic for clipping flexible natur
8438.50.00		Equipment for cutting, mixing, and emulsify various meat products, provided
8438.50.00		Machines for forming nuggets, hamburgers and chicken steaks or meat by tur
8438.50.00		Machine pig skin remover cuts adjustable automatic mode to manual mode w
8438.50.00		Computer equipment for high performance slicers cold sausages and cheeses,
8438.50.00		Machines for cutting into cubes or strips of frozen meat products in blocks w
8438.80.90		Computer slicers high-performance machines for cold, sausages and cheese,
8438.80.90		continuing to cool mixture of 50% soy and 50% corn equipment, sauce manu
8438.90.00		Rollers for use in machine porcionar or forming mass or whole muscle of red
8439.10.30		autopressurizadas shredding for producing fibers from wood chips with conic
0+37.10.30	0	autopressurizadas sinedding for producing flocis from wood emps with come

8439.10.30	11	Grinders self-pressurized for the production of fibers from hardwood chips (
8439.30.30	1	Heads automatic inverters for the manufacture of corrugated cardboard, with
8439.30.90	41	Machines for finishing digitally printed materials, such as tags and labels, wo
8439.91.00	1	cylindrical sieves (sieve baskets), with cylindrical or tapered bore diameter ed
8439.91.00	4	Segments (circle sectors with bars and slots) for refiners discs (shredders) of
8439.91.00	13	Blankets extended shoe-type roll for the production of pulp and paper, manuf
8439.99.90	24	Rolls variable camber (bending compensation), hydraulically actuated with o
8439.99.90	25	Rollers or guides openers manufactured in carbon fiber with rubber coating o
8440.10.90	9	Automatic machine for stapling and cutting trilateral magazines and books, w
8440.10.90	10	Machines for square spine binders for the production of books with a thickne
8440.10.90	17	forming hard cover books machines, comprising card supply units, power lini
8440.10.90	35	Combinations machines for hardcover formation and placement of inner liner
8440.10.90	53	machine combinations for the manufacture of hardcover books, with numeric
8440.10.90	55	Machine for the automatic collation through tower system, stapling and cuttir
8440.10.90	65	Machine for gluing in hardcover books brains previously made with a maxim
8441.10.90	22	Automatic labels and cutting labels by troquelagem containing transport unit
8441.10.90	78	Automatic cutting by troquelagem, for cutting flat or recessed aluminum tops
8441.10.90	79	
8441.30.90	44	grooves forming machinery (creases) in cardboard plates, operating at peak c
8441.30.90	51	Machine tools for bending application and glue paper and paperboard, previo
8441.30.90	58	Combinations of machines for the manufacture of corrugated cardboard boxe
8441.40.00		Machines for molding molds of paper and cardboard, for various cakes (type
8441.80.00		Automatic machines with cutting head mounted on movable portico drive sys
8441.80.00		Machine for cutting and creasing sheet of paper and corrugated cardboard, w
8442.30.10		Machines for sheet metal exposure for printing "offset", direct from the comp
8442.30.10		engraving machines laser plates for flexographic printing, with or without dat
8442.50.00		Screens eletroformadas, 100% nickel, nonwoven, for use in modular units of
8443.11.90		printing machines, rotary, "offset", fed by coils, with or without dryer, imprin
8443.11.90		printing units "offset" for use in rotating machines fed by coils with system "l
8443.11.90		Combinations machines stamping process synthetic polyurethane laminates c
8443.11.90		Combinations of machines for printing on synthetic process with polyurethan
8443.13.29		Printers "offset" fed by maximum size sheets of less than 37.5 x 51cm, for on
8443.13.90		Printers "offset" fed by maximum size sheets of less than 37.5 x 51cm, for on
8443.13.90		Printers fed offset by maximum size sheet than or equal to 37 x 52cm, for one
8443.13.90		offset printers fed by sheets of maximum size equal to or exceeding 370 x 52
8443.13.90		Printers "offset" fed by maximum size sheets of less than 37.5 x 51cm, for on
8443.16.00		flexographic printing machines / encografica rotary cylinder by means of silic
8443.16.00		printing machines flexographic with core granite, with or without screen print
8443.16.00		central drum flexographic printers machines with up to 8 color groups, for pr
8443.19.10		Printing units silk-screen suitable for operation in label printing machines and
8443.19.90		printing rotary machines ionográfico or digital process, fed by sheet or coil, v
8443.19.90		Machines printers for recording labels or flexible packaging, for term transfer
8443.19.90		Machines for digital printing on cylindrical plastic tubes with a diameter of 2
8443.19.90		Rotogravure Printers maximum work speed of up to 350m / min, and printing
8443.31.11		multifunction printers with printing capacity in sizes up to A3 + (32.9×48.30)
8443.32.31		printing machines by piezoelectric system inkjet for photos, powered by coils
8443.32.31		Inkjet printers, quality photo printing, working with 6 colors (cyan, light cyar
8443.32.31		Inkjet printers, working with four colors (cyan, magenta, yellow and black) p
8443.32.31		Inkjet printers, quality photo printing, working with 6 colors (cyan, light cyar
8443.32.99		printing machines for dye sublimation system through both ribbons coils colo
8443.32.99		Automatic equipment for printing and labeling of sample tube bar codes for c
0.113.32.77		rationalize equipment for princing and tabelling of sample table but codes for q

8443.32.99	7	plastic card printing machines (PVC, PETG, PET, ABS and polycarbonate, a
8443.32.99	9	Thermal transfer equipment used for printing plastic cards (PVC or coated w
8443.32.99	10	end equipment transfer used for printing plastic cards (PVC or coated with P
8443.39.10	14	inkjet printing machines with cumulative functions or not to schedule, code, d
8443.39.10	27	digital printing machines piezolétrica inkjet, with 4 or more microimpressore
8443.39.10	145	digital printing machines for inkjet with U.V. healing and piezoelectric printh
8443.39.10	146	printing machines piezoelectric inkjet UV curing process using print system 4
8443.39.10	148	Machines for temporary printing markings on ophthalmic lenses, through ink
8443.39.10	154	high speed industrial printers and high-volume printing in color or black and
8443.39.10	156	high speed industrial printers and high-volume printing in color for paper roll
8443.39.10	177	printing machines piezoelectric inkjet, operating with a minimum of 04 and n
8443.39.10	182	digital printing machines for inkjet curing UV and heads of piezoelectric prin
8443.39.10	183	digital printing machines for inkjet curing U.V.ou LED and piezoelectric prir
8443.39.10	185	large format printers with high resolution and quality photo printing with a w
8443.39.10	187	Digital printing machines inkjet printer with the resolution 720 x 1.440dpi or
8443.39.10	188	large format printers with high resolution and quality photo printing with sup
8443.39.10	238	digital textile printing machines with printing technology by inkjet with based
8443.39.10		printing machines piezoelectric inkjet, with a maximum print speed of 33m ² /
8443.39.10	240	digital printing machines for inkjet curing U.V LED and piezo print heads
8443.91.99	6	Machines for creasing and shred cardboard, suitable for operating coupled we
8443.91.99	8	Creasing machines, boring and shred cardboard, suitable for operating couple
8443.91.99	15	transport machines, counting, stacking, pressing, and offsetting printing roll,
8443.91.99		Tedders automatic paper batteries for the same sheet formats or higher at 540
8443.91.99		insertar machinery and / or various superimposed inserts in books, magazines
8443.91.99		Semiautomatic machine for forming rolls of bars printed by pressing and enci
8443.91.99		Equipment for curing UV LED inks on rotary flexographic printers, through
8443.91.99		printed rolls desintercaladoras machines with maximum transport speed of 85
8443.99.29	2	Subsets support the print engine of ink cartridges for ink jet, made of injected
8443.99.41		print engines by thermal direct method with useful width of 48 mm, used in te
8446.10.90	1	FLAT BED KNITTING MACHINES for the manufacture of rigid and elastic
8446.21.00	3	Looms circular for the manufacture of polypropylene yarn fabric, operating a
8450.90.10		electronic control modules and interface for the user, for automatic washing r
8450.90.10		Integrated control panels and control functions for users, for use in a washing
8450.90.10		Opening and closing device for the exclusive use in washing machines capaci
8450.90.10		Counterweights for balancing of washing machine tube made of injected plas
8450.90.10		top covers for exclusive use in washing front-loading clothes machine enclose
8451.80.00		textile steaming machines and / or polymerization flat woven or patterned hor
8453.10.90		Continuous automatic machines for drilling wide leather exceeding 550mm, v
8453.10.90		Sanders leathers and / or skins with variable speed transport roller with clear
8453.10.90		Machines for removing post hides and / or skins, with clear width exceeding
8453.10.90		Hydraulic machines rebaixadeiras of hides or skins, with useful working widt
8453.10.90		hydraulic rotary machines for polishing and smoothing hides or skins, with cy
8453.10.90		Hydraulic machines combined to dry and stretch leather with useful working
8453.10.90		Machines to lower skins and hides with useful working width less than 3,000
8453.10.90		Machine for softening leather wet or dry, with a useful working width of at m
8453.10.90		Combinations of machines for continuous polishing laminated with synthetic
8454.30.10		Combinations machines for casting non-ferrous metals (aluminum), compose
8454.30.10		Machine for pressure casting of non-ferrous metals horizontal, cold chamber
8455.21.90		Laminators flat steel bar ends, the hot rolled to bars with a length between 50
8456.11.19		Machines for laser cutting of tubes and metal sheets with thickness between 3
8456.11.90		Combinations of machines for laser cutting and punching electric servo; at sp
0.50.11.70	13	community of machines for faster cutting and puncturing electric servo, at sp

8456.30.19	6	Machine tools for cutting, electro-discharge the wire, metal parts immersed in
8456.40.00	1	Machines for marking ophthalmic lenses by removing the anti-reflective laye
8456.50.00	2	cutting machines, jet d'pure water, with a nominal power of up to 400V / 60H
8457.10.00	304	Machining Centers for final finish rods for automotive engines, "spindles" hy
8457.10.00	305	Machining centers for roughing and semi-finishing of connecting rods for aut
8457.10.00	306	Machining centers such as "gantry" rotary table with tonnage capacity on the
8457.10.00	307	double column vertical machining centers, 3-axis, work table 2,100 x 1,400 n
8457.10.00	308	Universal machining centers, portal type, with numerical control (CNC) milli
8457.10.00	309	vertical machining centers of double column, type "Gantry" (porch) with nun
8457.10.00	310	Universal machining centers, portal type, with numerical control (CNC) milli
8457.10.00	311	Vertical Machining Centers for machining head with dual landing gear of air
8457.10.00	312	Vertical Machining Centers with numerical control CNC, with table 600 x 40
8457.30.90	4	Multi-station equipment, type "transfer", for machining diameter pen tips bet
8457.30.90		multiple stations machine type "transfer" for machining pen tips with diamete
8458.11.99	4	Lathes horizontal, computerized numerical control (CNC), monofusos with m
8458.11.99		horizontal turning centers for metal parts with numerical control (CNC), for t
8458.11.99	_	horizontal automatic lathes, computerized numerical control (CNC), monofus
8458.11.99		Horizontal lathes with numerical control, for mounting on pit rails in for mac
8458.11.99	_	Double automatic lathes horizontal "spindle" (2 opposing concentric trees an
8458.11.99		horizontal CNC turning centers to the oval machining pistons, with a maximu
8458.19.90		horizontal, automatic lathes, PLC and HMI, proper and exclusive to machining
8458.91.00		vertical turning centers, twin screw, of numerical control (CNC), with polyme
8458.91.00	_	9 multitasking lathe axis with numerical control (CNC), the maximum speed
8460.12.00		
8460.12.00	•	Machines for grinding flat profiles, circular, concave and convex with device
8460.31.00		tool sharpening machines with five axes controlled by numerical control (CN
8460.31.00		Machine tool for producing and / or regrinding tools and inserts of polycrysta
8460.40.11		Automatic numerical control of machines for honing of cylinders 79mm diam
8460.40.11		automatic machines, numerically controlled, for honing 51mm diameter beari
8460.90.90	-	Machine combinations for the surface treatment of deburring, cleaning by vib
8460.90.90		parts deburring automatic machines in ferrous materials such as gray and nod
8460.90.90		Machine combinations for the surface treatment of deburring, cleaning by vib
8462.10.90		Combinations machines recording process by stamping metal strip with a thic
8462.21.00		Machine combinations for the automatic production of springs and bent piece
8462.21.00	!	Programmable control equipment for the manufacture of cores such as "wour
8462.39.90		Automatic machine for pre-forming (folding) and cut electrical capacitor tern
8462.49.00		Combinations machines for expansion from sheet metal coils or sheets cut wi
8462.91.19	†	Hydraulic presses for terminal crimping hoses, with a sliding bearing in the p
8462.91.99		Combinations machines, with programmable logic controller (PLC), for man
8463.90.10	_	Rotary Tables 6 workstation for cracking rods for automobile engines to clea
8464.10.00	_	multiwire steel equipment in eletrossoldada structure for sawing blocks of na
8464.10.00	1	Machines for cutting natural stone, of the type used in esquedrajamento block
8464.20.10		Machines Automatic polishing machines, controlled by numerical control (Cl
8464.20.90		sizing machines for ceramic tiles, composed of 8 or 10 gauges fixed horizont
8464.90.19	_	Devices for centering and blocar ophthalmic lenses, properly positioning itse
8464.90.19		Automatic machine tools for beveling, trimming and end glass ophthalmic len
	-	
8464.90.19	•	Automatic machine tools for beveling, trimming and end glass ophthalmic let
8464.90.19	_	Automatic machine tools for bevel plastic ophthalmic lenses with numerical courses generating agreement, computer controlled orbitalmic lens diameters
8464.90.19		curve generating equipment, computer-controlled ophthalmic lens diameters
8465.10.00	_	Flexible multiple drilling centers of wood panels with numerical control (CN
8465.20.00	3	Machine tools for woodworking, with numerical control (CNC), milling, saw

0.465.01.10		
8465.91.10	_	Endless band saws for cutting wood and curves of various parts, with interpol
8465.92.11		Machine multiple stations for milling and sanding wooden narrow parts on bo
8465.99.00		Combinations of machines for wood chip washing, with a capacity exceeding
8465.99.00	_	Machine tool for working wood, with numerical control (CNC) capable of dr
8465.99.00		Machine tools for woodworking, with numerical control (CNC) for drilling, r
8465.99.00		Machine tool for working wood, gantry with numerical control (CNC) capabl
8465.99.00	-	Cepilhadores antagonistic rotating ring with vibratory feeder, a rotary magne
8465.99.00		Automatic machines for drilling, milling or sawing solid wood, MDF or parti
8466.10.00		toolholders tower for use of activated or fixed tool holder in the radial or axia
8466.93.20		linear ball or roller guides, used in machining centers, to promote themselves
8466.93.30		clamping cylinders, passing, hydraulic, suitable for plates and clamps of fixin
8466.93.30	18	clamping plates 3 nuts with passage bar, actuated by radial movement of bloc
8468.20.00	1	Semi-automatic cutting machines for ferrous material (forged) by the heating
8471.50.10	1	Data processing units for the exclusive handling of radiographic and mammo
8471.70.12	1	Hard drives, with one head set-disc (HDA "Head Disk Assembly"), with SAT
8471.70.12	3	Hard drives, with one head set-disc (HDA "Head Disk Assembly") and SCSI
8471.80.00	3	digital processing units dedicated to embedded operation, OBCU ("On-Boar
8471.80.00	12	Units for industrial processing machinery data, which may have 0 to 16 input
8471.80.00	13	Units processing machine of industrial data type analog modules input for acc
8471.80.00	14	Units processing machine of industrial data type analog modules entry thermo
8471.90.90	5	automated gates for border control "e-Gates" for the purpose of speeding up a
8473.29.90	4	Keyboards mounted portable electronic payment terminals (POS) with numer
8473.29.90	5	Shielding metal against electromagnetic interference (EMI) and / or radio fre
8473.29.90	6	Steel portable electronic payment terminal holders (pos) obtained from sheets
8474.10.00	4	Screens high frequency vibrating linear motion with long by 4.879mm 4.371r
8474.10.00	28	self-propelled mobile screens for surface mining classification mounted on cr
8474.20.90	5	Mobile crusher for surface ores, self-propelled, displacing crawler system wit
8474.20.90	13	Crusher double cylindrical toothed roller high pressure, low speed and high to
8474.20.90	36	mobile crushers horizontal displacement of metal tracks, self-propelled, power
8474.20.90	44	Mobile crusher for surface ores, self-propelled, displacing crawler system wit
8474.20.90		Combinations of machines for primary crushing of ore, with nominal product
8474.20.90		Mills trapezoidal rollers provided with: main body 4 with rolls 460mm diame
8474.80.10		blow cores, automatic machines for the manufacturing process of inorganic n
8474.80.90		Combinations of machines for preparing and mixing sand, automatic, for the
8474.80.90	121	for the production of hydraulic presses ceramic coatings with maximum press
8474.90.00	-	System Triggering ball mills, type "gearless", electric room dedicated superv
8475.29.10		Equipment for hot molding for the production of glass bottles with 12 section
8477.10.19		Machines for injection molding plastic parts, injection horizontal being provi
8477.10.91		vertical vulcanizing machines for injection of elastomeric parts, with or withd
8477.10.99	_	fast cycle injection molding for manufacturing plastic pieces thin wall, 500t h
8477.20.10	_	Combinations of machines for the production of drip irrigation hoses, Polyeth
8477.20.10	1	Extruders for thermoplastic materials with double corotating screw nominal d
8477.59.11		Hydraulic presses for curing tire bead with a maximum diameter greater than
8477.59.11		machines type B.O.M. to vulcanize tires, vulcanization with capacity of betw
8477.80.90		Equipment for the application of rubbery strips of steel wires at the ends of the
8477.80.90	_	Equipment vacuum for laminar blocks or sheets of EVA and rubber, in a cont
8477.80.90	-	semi-automatic machines for making subsets internal carcasses of green tires
8477.80.90	•	Semiautomatic machines combinations for making green tires (semi-finished
8477.80.90	_	Automatic machines with programmable logic controller (PLC), for the produ
8477.80.90		Machine for cutting and folding the band safety seal diameter 25 to 38mm pl
8477.80.90		Combinations of automated machines for the production of strips, composed
UT11.0U.7U	+13	comornations of automated machines for the production of strips, composed

8477.80.90	416	Machines for the production of flexible bags from laminated plastics film and
8477.80.90	417	Machines for flexible bag production such as "stand-up pouches" from lamin
8477.80.90	418	Combinations of automatic machines for the manufacture of dentifrices packa
8477.80.90	419	Combinations of cutting machines for rubber profiles used in the construction
8477.80.90	420	Combinations of machines for cutting textile canvas straps and cauchutada in
8477.80.90	421	Automatic equipment for cutting sections of tires of samples with dimensions
8477.80.90	422	Functional units for frothing tank, headboards and sleepers lines of display ar
8477.90.00	400	planar arrays, automatic, suitable for extrusion feed block with 7 layers, with
