COMMON ALLOY ALUMINUM SHEET FROM BAHRAIN, BRAZIL, CROATIA, EGYPT, GERMANY, INDIA, INDONESIA, ITALY, OMAN, ROMANIA, SERBIA, SLOVENIA, SOUTH AFRICA, SPAIN, TAIWAN, AND TURKEY INJURES U.S. INDUSTRY, SAYS USITC

The United States International Trade Commission (USITC) today determined that a U.S. industry is materially injured by reason of imports of common alloy aluminum sheet from Bahrain, Brazil, Croatia, Egypt, Germany, India, Indonesia, Italy, Oman, Romania, Serbia, Slovenia, South Africa, Spain, Taiwan, and Turkey that the U.S. Department of Commerce (Commerce) has determined are sold in the United States at less than fair value and subsidized by the governments of Bahrain, India, and Turkey.

Chair Jason E. Kearns, Vice Chair Randolph J. Stayin, and Commissioners David S. Johanson, Rhonda K. Schmidlein, and Amy A. Karpel voted in the affirmative.

As a result of the Commission's affirmative determinations, Commerce will issue antidumping duty orders on imports of this product from Bahrain, Brazil, Croatia, Egypt, Germany, India, Indonesia, Italy, Oman, Romania, Serbia, Slovenia, South Africa, Spain, Taiwan, and Turkey; and countervailing duty orders on imports of this product from Bahrain, India, and Turkey.

The Commission also made negative critical circumstances findings with regard to subsidized imports of this product from Turkey and dumped imports of this product from Indonesia. As a result, these imports will not be subject to retroactive countervailing or antidumping duties.

The Commission's public report *Common Alloy Aluminum Sheet from Bahrain, Brazil, Croatia, Egypt, Germany, India, Indonesia, Italy, Oman, Romania, Serbia, Slovenia, South Africa, Spain, Taiwan, and Turkey* (Inv. Nos. 701-TA-639 & 641-642 and 731-TA-1475-1479, 1481-1483 & 1485-1492 (Final), USITC Publication 5182, April 2021) will contain the views of the Commission and information developed during the investigations.

The report will be available by May 4, 2021; when available, it may be accessed on the USITC website at: http://pubapps.usitc.gov/applications/publogs/qry_publication_loglist.asp (http://pubapps.usitc.gov/applications/publogs/qry_publication_loglist.asp).
