August 27, 2021

Dear Chi-Chuan Susan Hu:

This refers to the notice dated April 15, 2021, informing you that, pursuant to subsection 31(1) of the *Special Import Measures Act* (SIMA), an investigation had been initiated respecting the alleged injurious dumping of certain small power transformers (SPT) from Austria, the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (Chinese Taipei) and South Korea.

The preliminary phase of the investigation is now complete. The evidence available to the Canada Border Services Agency (CBSA) indicates that SPT from Austria, Chinese Taipei and South Korea has been dumped. Therefore, on August 27, 2021, the CBSA made a preliminary determination of dumping respecting these goods pursuant to subsection 38(1) of SIMA.

A *Statement of Reasons*, which summarizes the information on which this decision was based and which describes in general terms the future activities related to the investigation, will be issued within 15 days and be available on the CBSA's website at www.cbsa-asfc.gc.ca/sima.

The investigation is continuing and the CBSA will make a final determination or terminate the investigation by November 25, 2021. You will be notified of this decision.

On June 14, 2021, pursuant to subsection 37.1(1) of SIMA, the Canadian International Trade Tribunal (CITT) determined that there is evidence that discloses a reasonable indication that the dumping of SPT from Austria, Chinese Taipei and South Korea has caused injury or is threatening to cause injury to the domestic industry. The CITT is now conducting an inquiry into the question of injury and is expected to issue its final decision by December 24, 2021.

.../2

Pursuant to section 8 of SIMA, provisional duties are payable on the dumped subject goods that are released from the CBSA during the period commencing August 27, 2021, and ending on the earlier of the day the investigation is terminated, the day on which the CITT makes a finding, or the day an undertaking is accepted. During this period, referred to as the provisional period, the importer of such goods shall pay, or cause to be paid, provisional duties or post security in the prescribed form.

The amount of provisional duties payable on imported goods will be equal to the estimated margin of dumping. The various rates of provisional duty, listed by exporter, are indicated in the **Attachment** of this letter. Where the margin of dumping is considered insignificant, the investigation will continue but provisional duties will not be payable.

If you wish to discuss or seek clarification on this matter, please contact Simon Duval, Manager, Anti-dumping and Countervailing Investigations Division, at 613-291-9301 or by e-mail at Simon.Duval@cbsa-asfc.gc.ca.

Yours truly,

For/ Darryl Larson
