## USITC MAKES DETERMINATIONS IN FIVE-YEAR (SUNSET) REVIEWS CONCERNING STEEL CONCRETE REINFORCING BAR FROM JAPAN, TAIWAN, AND TURKEY

The U.S. International Trade Commission (USITC) today determined that revocation of the existing countervailing duty order on steel concrete reinforcing bar (“rebar”) from Turkey and revocation of th

antidumping duty orders on rebar from Japan, Taiwan, and Turkey would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

As a result of the Commission's affirmative determinations, the existing orders on imports of this product from Japan, Taiwan, and Turkey will remain in place.

Chairman David S. Johanson and Commissioners Rhonda K. Schmidlein, Jason E. Kearns, Randolph J. Stayin, and Amy A. Karpel voted in the affirmative for the reviews involving Japan, Taiwan, and Turkey.

Today's action comes under the five-year (sunset) review process required by the Uruguay Round Agreements Act. See the attached page for background on these five-year (sunset) reviews.

The Commission's public report Steel Concrete Reinforcing Bar from Japan, Taiwan, and Turkey (Inv. Nos. 701-TA-564 and 731-TA-1338-1340 (Review), USITC Publication 5400, January 2023) will contain the views of the Commission and information developed during the review.

The report will be available by February 21, 2023; when available, it may be accessed on the USITC website at: [https://www.usitc.gov/commission\\_publications\\_library](https://www.usitc.gov/commission_publications_library).

---

## BACKGROUND

The Uruguay Round Agreements Act requires the Department of Commerce to revoke an antidumping or countervailing duty order, or terminate a suspension agreement, after five years unless the Department of Commerce and the USITC determine that revoking the order or terminating the suspension agreement would be likely to lead to continuation or recurrence of dumping or subsidies (Commerce) and of material injury (USITC) within a reasonably foreseeable time.

The Commission's institution notice in five-year reviews requests that interested parties file responses with the Commission concerning the likely effects of revoking the order under review as well as other information. Generally within 95 days from institution, the Commission will determine whether the responses it has received reflect an adequate or inadequate level of interest in a full review. If responses to the USITC's notice of institution are adequate, or if other circumstances warrant a full review, the Commission conducts a full review, which includes a public hearing and issuance of questionnaires.

The Commission generally does not hold a hearing or conduct further investigative activities in expedited reviews. Commissioners base their injury determination in expedited reviews on the facts available, including the Commission's prior injury and review determinations, responses received to its notice of

institution, data collected by staff in connection with the review, and information provided by the Department of Commerce.

The five-year (sunset) review concerning Steel Concrete Reinforcing Bar from Japan, Taiwan, and Turkey (Review) was instituted on June 1, 2022.

On September 6, 2022, the Commission voted to conduct expedited reviews. Chairman David S. Johanson and Commissioners Rhonda K. Schmidlein, Jason E. Kearns, Randolph J. Stayin, and Amy A. Karpel concluded that for Japan, Taiwan, and Turkey the domestic group responses were adequate and the respondent group responses were inadequate and voted for expedited reviews.

A record of the Commission's vote to conduct expedited reviews is available from the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Requests may be made by telephone by calling 202-205-1802.
