Dear Henry Chih-hung Liu:

The Canada Border Services Agency (CBSA) has today initiated a re-investigation of the normal values and export prices of certain hot-rolled carbon steel heavy plate and high-strength low-alloy steel heavy plate from the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (Chinese Taipei) and the Federal Republic of Germany.

The re-investigation is part of the CBSA's enforcement of the Canadian International Trade Tribunal's (CITT) injury finding issued on February 5, 2021.

The information collected during the course of this re-investigation will be used to update the normal values and export prices for future shipments in accordance with the *Special Import Measures Act* (SIMA).

You may visit the CBSA's website to view the notice of initiation and the schedule at: www.cbsa-asfc.gc.ca/sima-lmsi/ri-re/menu-eng.html. This website will also be updated when new information becomes available.

As part of the dumping re-investigation, the CBSA is requesting information from the exporters of the subject goods in your country concerning normal values and export prices. A copy of this questionnaire for exporters is included in the enclosed as *Dumping Request for Information*.

It should be noted that the CBSA requires a complete response from the exporters of the goods. In the event that the information provided to the CBSA by parties to the re-investigation is insufficient, the normal value and export price will be determined in such a manner as the Minister specifies.
