USITC VOTES TO CONTINUE INVESTIGATIONS ON CORROSION-RESISTANT STEEL PRODUCTS

The United States International Trade Commission (USITC) today determined that there is a reasonable indication that a U.S. industry is materially injured by reason of imports of corrosion-resistant steel products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam that are allegedly sold in the United States at less than fair value and subsidized by the governments of Brazil, Canada, Mexico, and Vietnam.

Chair Amy A. Karpel and Commissioners Jason E. Kearns, David S. Johanson and Rhonda K. Schmidlein voted in the affirmative.

As a result of the Commission's affirmative determinations, the U.S. Department of Commerce will continue its investigations of imports of corrosion-resistant steel products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam, with its preliminary antidumping duty determinations due on or about February 12, 2025 and its preliminary countervailing duty determinations on November 29, 2024.

The Commission's public report of *Corrosion-Resistant Steel Products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam*, (Inv. Nos. 701-TA-733-736 and 731-TA-1702-1711 (Preliminary), USITC Publication 5558, October 2024) will contain the views of the Commission and information developed during the investigations.

The report will be available by November 25, 2024; when available, it may be accessed on the USITC website at:

https://www.usitc.gov/commission_publications_library.
