Re: Countervailing Duty Investigation of Certain Epoxy Resins from Taiwan: Notification of Verification

Dear Andy Tsai:

The U.S. Department of Commerce (Commerce) is scheduled to issue the final determination in the above-referenced investigation on January 21, 2025. In accordance with section 782(i) of the Tariff Act of 1930, as amended, Commerce intends to verify information that will be relied upon in this review. The Statement of Administrative Action that accompanied the Uruguay Round Agreements Act states that Commerce “will verify information in a foreign country only after...notifying the foreign government concerned of the details of verification.”

Accordingly, the Taiwan Authorities and the company respondents under investigation, through their representatives, and Commerce officials have agreed on the following schedule for verifications in Taipei, Taiwan:

- Chang Chun Plastics Co. Ltd. – November 5-8, 2024
- Nan Ya Plastics Corp. – November 5-8, 2024
- Taiwan Authorities – November 11-15, 2024

If you have any questions on this matter, please contact me at elizabeth.eastwood@trade.gov.

Sincerely,

Elizabeth Eastwood
Director, Office IX
Antidumping and Countervailing Duty Operations
