F. No. 6/25/2023-DGTR
Government of India
Ministry of Commerce & Industry
Department of Commerce
Directorate General of Trade Remedies

Date: 12.06.2025

Corrigendum Notification
Case No. CVD (OI) – 03/2023

Subject: Final Findings in the Countervailing Duty Investigation concerning imports of “Digital Offset Printing Plates” originating in or exported from China PR and Taiwan.

Having regard to the Customs Tariff Act, 1975, as amended from time to time, and the Customs Tariff (Identification, Determination and Assessment of Countervailing Duties and Injury) Rules, 1995, as amended time to time, thereof, the Director General has issued the Final Finding Notification F. No. 6/25/2023 – DGTR dated March 28, 2025, in respective of the above countervailing duty investigation.

The following paragraph may be added below the duty table at paragraph 288:

**For Serial No. 1, 3, 7 and 8 above, the amount of countervailing duty to be imposed is equivalent to the difference between the quantum of countervailing duty mentioned in Col. No. 7 and anti-dumping duty payable, if any (i.e., $CVD = \text{Duty Col 7 above} - \text{ADD}$, if any) under Notification No. 28/2024-Customs (ADD) dated 26.12.2024.*

*** For Serial No. 2 and 4 above, the quantum CVD to be imposed would be the countervailing duty mentioned in Col No. 7 minus antidumping duty payable, if any. As the differential amount is negative or zero, no countervailing duty shall be collected in such cases (i.e. $CVD = \text{Duty in Col No 7 above} - \text{ADD}$, if any) under Notification No. 28/2024-Customs (ADD) dated 26.12.2024.*

**** For Serial No. 5 and 6, since the sum of countervailing duty and anti-dumping duty exceeding the injury margin, therefore, the quantum of countervailing duty to be imposed would be equivalent to the difference between the quantum of injury margin and anti-dumping duty mentioned in Col. No. 7 (at S. No. 6 residual category of Notification No. 28/2024-Customs (ADD) dated 26.12.2024). Accordingly, for producer at serial no. 5 the differential duty of 0.01 USD/SQM and for producer at serial no. 6 the differential duty of 0.31 USD/SQM would be payable as CVD.*

*****For Serial No. 9 and 10 the quantum of countervailing duty to be imposed is in addition to the anti-dumping duty payable as the recommended subsidy margin and anti-dumping duty are less than the injury margin. (i.e. $CVD = \text{Duty in Col. 7 above}$)*

******Excluding waterless CtP Plates used for printing on specialised materials such as credit card, security card etc., and not on paper.*
