NOTE TO THE FILE FOR INSPECTION BY INTERESTED PARTIES

Subject: AD739 Anti-dumping investigation concerning imports of imports of certain cold-rolled flat steel products ('CRF') originating in India, Japan, Taiwan, Türkiye and Vietnam

Definitive sample of Union producers

In accordance with the legislation in force ⁽¹⁾ ('the basic Regulation') on 18/09/2025 the European Commission initiated the above investigation.

After analysing the information provided by Union producers of the like product and given that no comments were received on the provisional sample of Union producers, under paragraph 5.4 of the Notice of initiation, the Commission informs interested parties of the definitive sample selection.

The Commission has selected 3 Union producers as the definitive sample. Under Article 17 of the basic Regulation, the criteria used for the selection of the sample were the representativity in terms of volume of production and sales of the like product on the free market in the EU between 1 July 2024 and 30 June 2025.

The definitive sample represents more than 24% of the estimated total volume of production, 17% of the estimated sales of the like product on the free market in the Union and it also ensures a good geographical spread.

The sampled companies are:
