CORROSION-RESISTANT STEEL PRODUCTS FROM AUSTRALIA, BRAZIL, CANADA, MEXICO, NETHERLANDS, SOUTH AFRICA, TAIWAN, TURKEY, UNITED ARAB EMIRATES, AND VIETNAM INJURE U.S. INDUSTRY, SAYS USITC

The U.S. International Trade Commission (Commission or USITC) today determined that a U.S. industry is materially injured by reason of imports of corrosion-resistant steel products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam that the U.S. Department of Commerce (Commerce) has determined are sold in the United States at less than fair value and subsidized by the governments of Brazil, Canada, Mexico, and Vietnam

Chair Amy A. Karpel and Commissioners David S. Johanson and Jason E. Kearns voted in the affirmative.

As a result of the Commission's affirmative determinations, Commerce will issue antidumping duty orders and countervailing duty orders, as indicated above, on imports of these products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam.

The Commission's public report on Corrosion-Resistant Steel Products from Australia, Brazil, Canada, Mexico, Netherlands, South Africa, Taiwan, Turkey, United Arab Emirates, and Vietnam (Inv. Nos. 701-TA-733-736 and 731-TA-1702-1711 (Final), USITC Publication 5678, October 2025) will contain the views of the Commission and information developed during the investigations.

The report will be available by November 5, 2025; when available, it may be accessed on the USITC website.

Status of proceedings, links to relevant documents, and more information about the investigations can be found at the Commission's Investigations Database System (IDS).
