Subject: RR-2025-007 / Notice of Expiry Review of Finding - Avis de réexamen relatif à l'expiration des conclusions
(Le français suit)

January 5, 2026

Subject: [Heavy Plate \(expiry review RR-2025-007\)](#)

Pursuant to subsection 76.03(1) of the *Special Import Measures Act*, the Canadian International Trade Tribunal has initiated an expiry review of its finding made on February 5, 2021, in inquiry NQ-2020-001, concerning the dumping of heavy plate originating in or exported from the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu (Chinese Taipei) and the Federal Republic of Germany.

A copy of the notice of expiry review is enclosed. This notice should appear in Part I of the January 17, 2026, edition of the *Canada Gazette*.

The notice describes how the expiry review will be conducted and includes a schedule. Should the Canada Border Services Agency (CBSA) render a determination of likelihood of continued or resumed dumping if the Tribunal's finding expires, the Tribunal will then determine whether the expiry of the finding is likely to result in injury to the domestic industry. At that point, the Tribunal will issue expiry review questionnaires seeking information from domestic producers, certain importers and foreign producers, as well as any known trade unions that represent persons employed in the domestic industry.

Before the CBSA makes its determination, any questions relating to the CBSA questionnaires should be addressed to the CBSA SIMA Registry and Disclosure Unit, by telephone at 613-948-4605, or by email at sima_disclosure_and_registry_unit@cbsa-asfc.gc.ca.

If the Tribunal conducts an expiry review regarding the likelihood of injury, any questions should then be addressed to the undersigned (citt-tcce@tribunal.gc.ca).

Yours sincerely,

Guillaume Phaneuf

Objet : [Tôles fortes \(réexamen relatif à l'expiration RR-2025-007\)](#)

Le Tribunal canadien du commerce extérieur donne avis que, conformément au paragraphe 76.03(1) de la *Loi sur les mesures spéciales d'importation*, il procédera au réexamen relatif à l'expiration de ses conclusions rendues le 5 février 2021, dans le cadre de l'enquête NQ-2020-001, concernant le dumping de tôles fortes originaires ou exportées du Territoire douanier distinct de Taiwan, Penghu, Kinmen et Matsu (Taipei chinois) et de la République fédérale d'Allemagne.

Vous trouverez ci-joint une copie de l'avis de réexamen relatif à l'expiration. Cet avis devrait paraître dans la Partie I de la *Gazette du Canada* du 17 janvier 2026.

L'avis décrit comment se déroulera le réexamen relatif à l'expiration et comprend un calendrier. Si l'Agence des services frontaliers du Canada (ASFC) décide que l'expiration des conclusions du Tribunal causera vraisemblablement la poursuite ou la reprise du dumping, le Tribunal décidera si l'expiration des conclusions causera vraisemblablement un dommage à la branche de production nationale. Le Tribunal enverra à ce moment, aux fins de sa partie du réexamen relatif à l'expiration, des questionnaires à des producteurs nationaux, des importateurs, des producteurs étrangers ainsi que tout syndicat connu qui représente les personnes employées dans la branche de production nationale.

Avant que l'ASFC ne rende ses décisions, toute question concernant les questionnaires de l'ASFC doit être adressée au Centre de dépôt et de communication des documents de la LMSI au 613-948-4605 (téléphone) ou à l'adresse sima_disclosure_and_registry_unit@cbsa-asfc.gc.ca (courriel).

Si le Tribunal effectue un réexamen relatif à l'expiration sur la probabilité de dommage, toute question doit alors être adressée au soussigné (tcce-citt@tribunal.gc.ca).

Veuillez agréer l'expression de mes sentiments distingués.

Ottawa, Ontario K1P 1A4

January 6, 2026

Dear Henry Chih-hung Liu:

On January 5, 2026, the Canadian International Trade Tribunal (CITT), pursuant to subsection 76.03(1) of the Special Import Measures Act (SIMA), initiated an expiry review of its finding made on February 5, 2021, in inquiry NQ-2020-001, concerning the dumping of certain hot-rolled carbon steel plate and high-strength low-alloy steel plate originating in or exported from the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (Chinese Taipei) and Germany (subject goods).

As a result of the CITT's expiry review, the Canada Border Services Agency (CBSA) has today initiated an expiry review investigation to determine, pursuant to paragraph 76.03(7)(a) of SIMA, whether the expiry of the finding is likely to result in the continuation or resumption of dumping of the subject goods. The CBSA will make a determination no later than June 4, 2026, and will issue a *Statement of Reasons* by June 19, 2026.

The product definition and the applicable tariff classification numbers of the goods subject to the CITT's finding are accessible on the CBSA's [Measures in force](#).

If the CBSA determines that the expiry of the CITT's finding is not likely to result in the continuation or resumption of dumping of the subject goods, the finding will be rescinded and all duties paid in respect of goods that were released after the date that the finding was scheduled to expire will be returned to the importer. If the CBSA determines that the expiry of the finding with respect to any goods is likely to result in the continuation or resumption of dumping of the goods, the CBSA will provide the CITT with its administrative record. The CITT will then conduct an expiry review to determine if the rescission of the finding is likely to result in injury or retardation and will issue its order within 160 days after the day on which the CBSA's determination is received.

You are invited to visit the [CBSA's website](#) to view the *Notice of Initiation of Expiry Review Investigation* as well as the schedule of this expiry review investigation. The website will be updated when new information becomes available.

As part of its expiry review investigation, the CBSA is requesting information from exporters and producers of the subject goods in your country. The information required from exporters and producers is detailed in the questionnaire enclosed with this letter. The information provided to the CBSA will be used to determine if the expiry of the finding is likely to result in the continuation or resumption of dumping of the goods.

The CBSA has a new [Anti-dumping and Countervailing E-filing \(ACE\) Web Application](#). The ACE web application is a 24/7 digital self-service tool for complainants, counsel, or other interested parties involved in proceedings under the SIMA. For instructions on filing submissions with the new ACE web application, please review the Expiry Review Questionnaire for instructions.

Should you have any questions pertaining to this expiry review investigation, please contact Terence Fernandes at 343-553-1463 or by email at Terence.Fernandes@cbsa-asfc.gc.ca.

Yours truly,

Sean Borg
A/Executive Director

NOTICE OF EXPIRY REVIEW OF FINDING

HEAVY PLATE

The Canadian International Trade Tribunal gives notice that, pursuant to subsection 76.03(1) of the *Special Import Measures Act* (SIMA), it will initiate an expiry review of its finding made on February 5, 2021, in inquiry NQ-2020-001, concerning the dumping of hot-rolled carbon steel plate and high-strength low-alloy steel plate, not further manufactured than hot-rolled, heat-treated or not, in cut lengths, in widths greater than 72 inches (+/- 1,829 mm) to 152 inches (+/- 3,860 mm) inclusive, and thicknesses from 0.375 inches (+/- 9.525 mm) up to and including 4.5 inches (+/- 114.3 mm) (with all dimensions being plus or minus allowable tolerances contained in the applicable standards), originating in or exported from the Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu (Chinese Taipei) and the Federal Republic of Germany (the subject goods), but excluding:

- plate in coil form, and
- plate having a rolled, raised figure at regular intervals on the surface (also known as floor plate).

For greater certainty, the subject goods include steel plate which contains alloys greater than required by recognized industry standards, provided the steel does not meet recognized industry standards for an alloy grade steel plate. The list of additional products that were excluded from the Tribunal's finding can be found on the [Tribunal's website](#).

In this expiry review, the Canada Border Services Agency (CBSA) will first determine whether the expiry of the finding in respect of the subject goods is likely to result in the continuation or resumption of dumping of the subject goods. If the CBSA determines that the expiry of the finding in respect of any goods is likely to result in the continuation or resumption of dumping, the Tribunal will then determine if the continued or resumed dumping is likely to result in injury to the domestic industry. The CBSA will provide notice of its determination within 150 days after receiving notice of the Tribunal's initiation of the expiry review, that is, no later than **June 4, 2026**. The Tribunal will issue its order and its statement of reasons no later than **November 10, 2026**.

Each person or government wishing to participate in this expiry review must file [Form I—Notice of Participation](#) with the Tribunal by **January 20, 2026**. **Regarding the importance of the deadline for filing a notice of participation, please read carefully the “Support by domestic producers” section below.** Each counsel who intends to represent a party in the expiry review must file [Form II—Notice of Representation](#) and [Form III—Declaration and Undertaking](#) with the Tribunal, by **January 20, 2026**. The Tribunal will issue a list of participants shortly thereafter.

On **July 27, 2026**, the Tribunal will distribute the record to participants. Counsel and self-represented participants are required to serve their respective submissions on each other on the dates outlined below. Public submissions are to be served on counsel and those participants who are not represented by counsel. Confidential submissions are to be served only on counsel who have access to the confidential record, and who have filed Form III—Declaration and Undertaking with the Tribunal. This information will be included in the list of participants. **One complete electronic version** of all submissions must be filed with the Tribunal.

The Tribunal will hold a hearing relating to this expiry review commencing on **August 31, 2026**. The type of hearing will be communicated at a later date.

Written submissions, correspondence and requests for information regarding the Tribunal's portion of this expiry review should be addressed to the Registry, Secretariat to the Canadian International Trade Tribunal, at citt-tcce@tribunal.gc.ca or you may reach the Registry at 613-993-3595.

Ottawa, January 5, 2026

ADDITIONAL INFORMATION

BACKGROUND INFORMATION

In this expiry review, the CBSA will first conduct an investigation to determine whether the expiry of the finding in respect of the subject goods is likely to result in the continuation or resumption of dumping of the subject goods. To this end, the CBSA will send questionnaires to domestic producers, importers and foreign producers to gather information for its investigation. Further information regarding the CBSA's investigation can be obtained by contacting the CBSA SIMA Registry and Disclosure Unit, by telephone at 613-948-4605, or by email at simaregistry-depotlmsi@cbsa-asfc.gc.ca. A copy of the CBSA's investigation [schedule](#) is available on the CBSA's website.

If the CBSA determines that the expiry of the finding in respect of any goods is likely to result in the continuation or resumption of dumping, the Tribunal will conduct its portion of the expiry review, pursuant to the provisions of SIMA and its [Expiry Review Guidelines](#), to determine if the continued or resumed dumping of the subject goods is likely to result in injury to the domestic industry. Upon receipt of the CBSA's determination, if any, of a likelihood of continued or resumed dumping, the Tribunal will issue other questionnaires to domestic producers, certain importers, foreign producers, as well as any known trade unions that represent persons employed in the domestic industry, to gather information for the purposes of its expiry review.

The schedule for the Tribunal's expiry review follows.

SUPPORT BY DOMESTIC PRODUCERS

Subsection 76.03(2) of SIMA provides that the Tribunal may terminate an expiry review at any time if, in the Tribunal's opinion, the review is not supported by domestic producers. The question as to whether the expiry review is supported by domestic producers will be assessed by the Tribunal based on the circumstances specific to this case. However, the Tribunal will typically consider that the failure of domestic producers to file notices of participation with the Tribunal or to substantially participate in the expiry review indicates that the review is not supported.

The Tribunal therefore requires that each person or government wishing to participate in this expiry review and, most importantly, domestic producers, file their notices of participation no later than 15 days after the issuance of this notice.

REQUESTS FOR PRODUCT EXCLUSIONS

The Tribunal's [Guidelines on Product Exclusion Requests](#) describe the procedure for filing requests for specific product exclusions. [Forms](#) are available on the Tribunal's website to facilitate the filing of product exclusion requests, responses and replies to responses.

PROCEDURE FOR E-FILING WITH THE TRIBUNAL

The public, counsel and self-represented participants may file documents electronically with the Tribunal through its [Secure E-filing Service](#). The information is fully encrypted from the sender to the Tribunal.

Form I—Notice of Participation, Form II—Notice of Representation and Form III—Declaration and Undertaking, should all be filed electronically through the Tribunal's Secure E-filing Service.

Following receipt of completed forms I, II and III, the Tribunal will send to counsel and self-represented participants a letter with information on the E-registry Service and the filing of documents.

HEARING

The Tribunal will hold a hearing relating to this expiry review commencing on **August 31, 2026**. The type of hearing will be communicated at a later date.

INTERPRETATION AT THE HEARING

To facilitate management of interpretation requirements:

- 25 days prior to the hearing, parties are to advise the Tribunal and all parties, in writing, which language(s) their counsel and witnesses will be using.
- 20 days prior to the hearing, parties are to advise the Tribunal and all parties, in writing, which interpretation services they and/or their witnesses require for the hearing and advise if the interpretation service is required for the entirety of the hearing or for specific testimonies and/or arguments.

OTHER INFORMATION

The [*Canadian International Trade Tribunal Rules*](#) govern these proceedings.

In accordance with section 46 of the [*Canadian International Trade Tribunal Act*](#), a person who provides information to the Tribunal and who wishes some or all of the information to be kept confidential must, among other things, submit a non-confidential edited version or summary of the information designated as confidential, or a statement indicating why such a summary cannot be made. Please consult the Tribunal's [*Confidentiality Guidelines*](#) for more information.

Written and oral communication with the Tribunal may be in English or in French.

Please consult the [*Expiry Review Guidelines*](#) for more information.

At the end of these proceedings, the Tribunal will issue a decision supported by a statement of reasons. The decision will be posted on its website and distributed to counsel and self-represented participants, as well as to persons and organizations that have registered to receive decisions of the Tribunal.
