Dear Regine

APPLICATION FOR A DUMPING DUTY NOTICE IN RESPECT OF STEEL FLAT BARS EXPORTED TO AUSTRALIA FROM TAIWAN

I am writing to notify you that the Anti-Dumping Commission (the Commission) has today received additional information relevant to the properly documented application we recently notified you of (requesting the publication of a dumping duty notice in respect of exports of Steel Flat Bars exported to Australia from Taiwan). In particular, the description of the goods has been updated and are described by the applicant as being classified to the following tariff classification codes:

- 7214.91.00
- 7215.50.10
- 7215.50.90
- 7228.30.90
- 7308.90.00

The Commission is currently assessing the additional information provided to determine if the application appears to establish reasonable grounds for the publication of a dumping duty notice. Pursuant to Article 5.5 of the WTO *Anti-Dumping Agreement*, the Commission is avoiding any publicising of the application.

Australian legislation requires that a decision on whether to proceed with an investigation must now be made on or before 15 July 2026. I will inform you of the outcome of the Commission's consideration of the application as early as possible.

Should a decision be made to initiate the investigation, you will be provided with a copy of the non-confidential version of the application.

If you would like to discuss any of the matters raised in this letter, please contact me on 03 8539 2433 or email investigations3@adcommission.gov.au.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Math W', is positioned above the typed name.
